Tar as a Medicine. So well known and recognized both by the Medical Faculty and the people, are the curative properties of Pine Tar, that a single word in its commendation as a remedial agent would appear superfluous .-But although its potency in the cure of disease has been fully recognized for the last three centuries, it is not generally known, until within the last few years, no process has been known to science whereby all the twelve ingredients of which it is composed, could be reduced to a form in which every property could be made available in the treatment of disease.
